Dear Kathryn

Thank you for the email.

I've annotated the photo that was included with the last Reasons for Work.

Hopefully this time it will be sufficient to get validated.

Kind regards

Andrew Gale *Dip Arb L6 (ABC) M.Arbor.A*

Dear Mr Gale,

Many thanks for your recent enquiry and I apologise, I have missed the previous message.

I understand that the information you have already provided is quite detailed. Unfortunately the validation documents require the trees be clearly identified; It enables there to be complete clarity for the officer who may visit site to assess the works, as such I would be grateful if you could provide, as best possible, the information we require in order for me to validate the application.

If you don't feel a plan would be the best option in providing the details, maybe photographs could accompany the application, with reference back to the tree schedule?

Kind regards

Kathryn

Dear Kathryn

Following your email dated 11th December 2020 asking for additional information, Andrew emailed you the below details on 22nd December and we have yet to hear back or have the application validated. Could you please advise what is happening with this matter

Hi Kathryn

Thank you for your email regarding R/254/20/T; my apologies for the delay in returning your message

The trees are all within a tight grouping and as such an annotated site plan won't really provide any additional information.

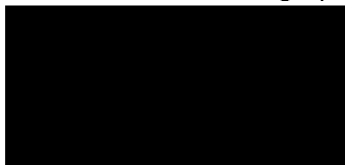

Surely the height and direction of the branches and where they are in relation to the allotment beds will suffice?

Kind regards
