Dear Mr Gardner.

Re. Revised planning application at 3 Central Ave.
Rustington - R/255/14/HH

I note that having obtained permission for a new flat roofed extension to the rear (south side) of this totally revamped property, the applicant has now asked for permission to change this to a part pitched roof, no doubt for cosmetic reasons, to which I object.

although no objection to the original plans were made the resulting size of the rear extension is much larger than imagined and being only 18 inches from my fence, will definitely screen afternoon sun, from the west, from my own and my neighbours garden.

If this new additional height of a surrounding pitched roof is allowed, more light & sun will undoubtedly be lost.

Yours sincerely
