Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Holm Oak TPO/R/1/06
One of the lower limbs of the tree is causing problems with the roof of the closest building- The Annex at 48 Ash Lane creating damp conditions with the constant shade and blocking gutters. It may also be causing damage to the felt roof covering.
See attached document from Tree Surgeon explaining nature of the works.
