Comments on Planning Application

R/267/17/PL - Rustington Hall

Objections to Application:

The proposed development though aesthetically pleasing within the Rustington Hall grounds will impinge on the pleasure residents in Paddock Green gain from their homes and gardens by restricting light.

The design and height of the roof would give an over-bearing and hemmed-in effect both from the windows of Paddock Green homes and in the gardens.

Windows to one home facing Paddock Green (shown on the plans given out at the original consultation meeting) are clear glass.

The design and height of the roof allowing for a huge third floor area with access from central stairs and windows facing all four directions appears to allow for future development.

Requests for restrictions to any permission for construction:

No future extensions or alterations including those to allow for future occupancy

Construction times restricted. e.g. Monday to Friday only
8.30am. to 5pm.

Boundary re-planting with pleached trees and /or tall shrubs to be carried out within a reasonable time frame as agreed and monitored by Council

Erection of hoarding to shield Paddock Green residents from some of the noise and dust
