

To Arden District Council - Planning General Enquiries

11th August 2018

Planning Application No R/267/17/PL

Thank you for your letter dated 9th August 2018 regarding amendment to the above application.

We have noted the lowering of the roof line by 1 metre. Does this bring height of new flats into line with adjacent flats?

Does this amendment mean the roof will become a conventional up and over roof. If it does this would be acceptable.

However if the "Wings" remain this amendment is paying lip service and not addressing our main concern - namely the "Wings". We would still be looking at a 3 storey vertical wall at the end of our garden.

A question: Why is a very large storage area needed in the roof space in this newbuild 2 story block of flats?

All other flats in the area do not have this and have conventional up and over roofs which, as stated above, would be acceptable to us.

We sincerely hope the above comments will be taken into consideration before a final decision is taken.
