Hi Nicola

Crown thin of 10% mainly crossing branches.

Thanks

Josh

Hi Josh

Thank you for your email, and the clarification of the crown reductions.

Could you please confirm the crown thin percentage please.

Many Thanks

Nicky

Hi Nicola

Further to our conversation earlier I can confirm that the trees we are applying to be worked on are all in the front garden and are as follows:

2 Lombardy Poplars crown reduction of 5 meters top and 3 meters sides

3 Silver birch crown reduction of 2 meters top and 1.5 meters sides

1 Whitebeam crown thin and removal of crossing branches

I hope this answers the questions

Many thanks

Josh
