Dear Tim,
Thank you for your co-operation and agreement to an EOT until 06-03-2020. I will amend our records accordingly.
Regards
Anita Gardner

Dear Anita

Thank you for your email of 14th January. Your position is understood. The ecology report will be sent to you as soon as I am in receipt of it (hopefully later today or tomorrow).

It is understood that the next Planning Committee meeting is 4th March 2020. Can we now agree to an extension of time to allow for this (perhaps to Friday 6th March)?

I look forward to hearing back from you on this.

Best regards,

TIM RODWAY

Subject: FW: 6 Manor Rd, Rustington, R268/19/PL - Biodiversity checklist

Dear Tim,

I have picked up your voicemail message and checked with Juan re timescales. The application can't go to February DC Committee. Once the Ecology Report is received at the end of the week I will need to consult our ecologist. The application is not therefore currently in a position where it can progress to an agenda.

Regards

Anita

Subject: FW: 6 Manor Rd, Rustington, R268/19/PL - Biodiversity checklist

Dear Tim,

Can you let me know when the Report will be available? The application can't make D C Committee close for February which is the end of this week so can we agree an extension of time until 06-03-2020 to facilitate the agenda for DC Committee on 04-03-2010.

Regards

Anita Gardner

Dear Tim,
I have received the e-mail below from a neighbour.
In view of their comments I request that a Stage 1 Ecology Report is undertaken and submitted for consideration.
Once received I will consult with our ecologist.
Regards
Anita Gardner

Subject: 6 Manor Rd, Rustington, R268/19/PL - Biodiversity checklist

Dear Mrs Gardner,

Could you please assist with my enquiry.

On the Biodiversity checklist for 6 Manor Rd, Rustington, the various sections state that no surveys have been carried out for Bats, Barn Owls, Breeding Birds, Badgers, Dormice, Great Crested Newts and Reptiles.

It then states that the development site shows no evidence in all the sections listed. My question is, can this be stated as such if no survey has been carried out?

Another reason for asking is because we have Slow Worms nesting in our garden and fairly certain we have seen a Dormouse. We have normal Field Mice present but the one seen, we suspect as a Dormouse as it looked completely different to the usual Mice we see.

I feel it may be worth carrying out a proper Biodiversity survey of the property before any development is considered.

Many thanks for your help in advance.
