Subject: Application_Ref_No=R/26/20/HH. For the attention of Zac Denton.

I'm writing as the immediate neighbour to Windsong, in respect of the above application. I live at Easter Cottage, where we too have recently had a refurbishment carried out. I like the look of our neighbours' plans and only have one small objection.

When work was carried out on our property we were obliged, quite understandably, to have opaque glass installed on the West side of our balcony balustrade for the purposes of privacy. We would respectfully ask that our future neighbours, in respect of our privacy also have an opaque or solid material used on the East and possibly also the West side of their balcony. Their balcony will sit on top of their new rear extension and partially look back into our house. The plans for the Windsong balcony are well to the South of our building line and in the outlined proposal will result in an intrusion of privacy.

Very best wishes,

John Marston
