Hi,

Please can the below text and attached plan be scanned in as part of the application concerning the first floor window on the side (north) elevation of the property.

Any questions, please ask.

Thanks,
Damian.

Dear Damian

Further to our telephone conversation earlier today. Please find attached the proposed North Elevation with the outline of the existing hallway window marked in red. I would like to confirm that the cill of the proposed window is 1700mm above first floor level with part of the window also being over the stairwell area. Therefore we consider the proposed window a vast improvement in privacy for the Neighbouring property (no.46 Pigeonhouse Lane)

Kind Regards

Lauren Willard
