Hi Tom

Following our site visit, I've attached a list of tasks that will need to be done before we can start the work. This includes contacting your electricity supplier (the company that you pay your bills to) to arrange for them to fit or move your electricity meter.

Please share this list with your builder or electrician if they will be carrying out some of the work for you. It's important they get this information to avoid any delays or extra costs.

Your Connections Coordinator will send you a quote and a breakdown of the costs within the next five working days. They'll call you before to talk you through everything and make sure you're happy before they send it to you.

In the meantime, if you have any questions please get in touch with me and I'll be happy to help.

Kind Regards

Ian Martin
