

Amberley Road, Services

Permissions for installation of a gate for road calming measures are confirmed by;

Fire and Rescue Services

From: Ian Stocks <[REDACTED]> on behalf of FRS Water and Access Sent: 18 /01/2022

To: [REDACTED]; Subject: Amberley Road, Rustington BN162EE: Gate

Once again the Fire Service do not have any jurisdiction on the addition of speed bumps or gates on highways, this will need to be approved by the Highways department.

You mention that access through these gates will have an override to allow access to the emergency services, what I would ask is how this override will be operated when the Fire Service needs access urgently in the event of a fire or a road traffic accident. The Fire Service do not carry keys or fobs as it may not be the local fire appliance that attends, it could any appliance from across the County depending on what incidents we have occurring in the area at the time.

Ambulance

From: Julia Leppard <[REDACTED]> Sent: 12/01/2022

To: [REDACTED]; Subject: Amberley Road, Rustington BN162EE: Gate

Please see the Operating Managers response to your enquiry:

Looking at the map there appears to be a fairly easy alternative access to addresses on Amberley Road if the gates are on the North End. Residents would need to understand that by putting gates on their road that it is inevitable there will be a delay reaching their addresses. If they accept this and there is a way in which the gates can be easily opened by ambulance crews if required then this is their prerogative.

Once the gates are installed could you ask him to contact us again so we can establish a proper process for opening them if there is a code? History marker etc.

For your information should you need to inform SECAmb of access codes, please send details to History.Marking@secamb.nhs.uk

Police

From: [REDACTED] Sent: 05/01/2022

To: [REDACTED]; Subject: Amberley Road, Rustington BN162EE: Gate

Thank you for contacting Sussex Police.

Your Incident reference has been listed above. The Police would not have any objection nor input on the plans for a private community to add gates to their road, however should there be a particular way to access the gate (i.e. a key-code) then we would that should any of the community require an emergency response then we be advised of the way to get into the road on the phone call, as long as the person calling is in a position to do so. This is just to ensure a swift response is not delayed.

For your information the Sussex Police Website has online reporting forms which can be used to report various incident types to us. We also have online Advice pages offering additional information and guidance.

If you have any queries relating to this incident then please contact us quoting your reference number.

Kind regards, Asher 38412

Subject: Ref: Amberley Road: Gate

Hi Ian

Please be assured that we are going through the process of obtaining the correct permissions from ADC / WSCC regarding the installation of a gate and having provision for any persons requiring access to the road can do so.

The gate opening mechanism can be controlled by pressing a button signed 'OPEN' which is on the Control Post situated next to the gate.

This will be a similar installation to that provided for the gates for local Knightscroft, Cudlow and Bushby Avenues.

The gate opening will be 3.5 m which we have been informed is sufficient width for emergency services access. If this is incorrect please let us know.

If you would like more technical detail regarding emergency opening please let me know.

Kind regards

Tom

Hi

Many thanks for the response.

We will be providing access to anyone by using a button on the control post.

We will notify [REDACTED] of this when gate with automation is fitted.

Kind regards

Tom

Subject: Amberley Road: Gates

Hi Damien

You may remember that I contacted you back in June 2021 asking if Biffa would have any objection for the installation of speed humps in Amberley Road and you replied that this would be acceptable providing they were of appropriate design and installed correctly.

The Amberley Road Residents Association has now asked me, again as their representative, to enquire if Biffa Waste Services would have any objections should we install gates at the north end junction with Glenville Road as part of our traffic calming measures.
