Dear Sir/Madam,

Ref - Planning Application R/29/22/CLP.

I wish to object to the above application as it will create a potentially dangerous traffic flow outside Zachary Merton Hospital.

The traffic travelling East towards the Hospital along Glenville Road are forced onto the 'other side' of the road by parked cars. Vehicles travelling North towards the Hospital have a left hand 'blind' bend with traffic coming straight at them on the 'wrong side' of the road.

The application would cause a lot of inconvenience to a lot of residents with little advantage to anybody.

Yours faithfully

MR C J LAWTON
