Re the above application, my neighbours Tony and Betty Davis have just been to the office to check upon their support letter, delivered by hand to Fran on reception on Tuesday afternoon. She seems to think this must have been mislaid in the system , and a copy of this letter has now been sent, on Fran's advice, to the technical scanning department for allocation to this application.

I trust since the original was delivered on March 19 th that this will be included in your considerations.
Many thanks
Regards
Tanya Holder
