Hi Anita,

Just back from the site visit, and unfortunately nobody was in. I did manage to peek over the fence to see the base of said tree. I would estimate this to be around 400 mm (applicant cited 390 mm for the Dbh - this seems accurate).

The applications from PJC consultancy tend to be of a good standard. From what I have seen no major issues if the methodology is adhered to.

Kind regards

Dafydd

Hi Anita,

I have moved my visit to today as it turned out I had a visit already booked for a neighbouring property. My pre-booked visit is at one, so I expect to have visited R/305/14/PL by 2 ish. Is it ok to get back to you for about 2/3 ish? (if this is too late, I can email off my tablet from the site). Sorry I did mean to email to let you know the change of plan on the visit, but it has been a bit mental this week!

Kind regards

Dafydd

Daydd,
Do you have any comments following your site visit?
Thanks
Anita

Hi Anita,

That's great I have found it. I will aim to visit for Wednesday this week.

Kind regards

Dafydd

Please find attached tree report for the above application. Does this help or do you still want me to calculate the RPA area?
