Subject: RE: Mechanical Ventilation & Environmental Control Equipment dated 21-01-18 - update request.

Dear Andrew,

As requested, I can confirm that paragraph 1.04 of the document entitled 'Mechanical Ventilation & Environmental Control Equipment' should be updated to refer to BS4142, entitled 'Method of Rating Industrial Noise Affecting Mixed Residential and Industrial Areas 2014', rather than the 1997 British Standard of the same number.

You also enquired about the end operator, I should clarify that the application has been prepared with a specific end operator in mind, and hence is designed in all respects for the requirements of that operator, but as the identity of the end operator is rarely a material planning consideration I see no need for such to be disclosed at this time.

Regards,

Adam
