Mr Wearing

If you can arrange to provide Ms Burrows with a hard copy of a photograph drawn on as discussed that will hopefully mean that you can get your application registered.

Regards

Dear mMr Baeza

I have tried on over six occasions to send you the photographs all have been returned with server failure. The span of the overhang is as follows : 8 metres nearest the house to 4metres to the rear of the garden, spread over 10 metres in length . I will try to get the photographs to you, either later today or over the weekend.

I have tried this morning to send you this written message without any photos, but this too failed! So I am using this previous email which you did get as a conduit for communication.

Kind regards
Mike Wearing

> Dear Mr Baeza
> Please find photos of T3 and its branches. I found it easier to mark on the ground and then measure to the fence. Whilst I accept it is not "laser accurate " it will I hope give some idea as to the amount of overhang. Please advise if this is acceptable. In the photographs you will see two bits of wood on the grass these are approx the extent of the overhang branches. The distance from the left hand side is 4.4metres from the fence and the right hand side (nearest the house) is 8.0 metres from the fence.
