Biodiversity Statement

Re; 23 Bushby Avenue, Rustington, West Sussex BN16 2BY

The proposal is within an established residential area in Rustington. There are no significant trees or hedgerows within or bordering the proposed site. It is therefore considered that any existing habitat will not be compromised or lost because of this development. However, the client would be happy to install 2 N° bird nesting boxes and a 'Hedgehog House' within the curtilage of the property to enhance biodiversity in the area.

I hope the above addresses the requirement and the application can be validated but should any further information be required please don't hesitate to contact me.

Yours sincerely

Trevor E. Unsted
