OBJECTION TO:-

Reference:- PLANNING APPLICATION R/64/17/PL
FOR ST MARY'S CLOSE IN HURST ROAD

Dear Sir / Madam,

I am against the above planning application and object accordingly.

Hurst Road is an environment friendly road with each house having an individual design which enhances the character of the road.

The proposed development of St. Mary's Close is squeezing four houses of identical design into an area where only three should go against the character of the road. This is highlighted by the fact that two of the proposed houses have their garages in the front gardens, in front of the building line. No other house in the road has a garage this way, which will set a precedent.

It is lamentable that a perfectly good house that resides at St Mary's Close has to be demolished to accommodate these new houses! This is all obviously to achieve a mere income profit rather than in keeping with the environment of this unique road.

Yours sincerely,
