Hi Charlotte,

hope you had a good weekend,

I have revisited the property today and estimate the previous pollard to be 30ft.

So to sum it up. we would like to re pollard these old Holm Oaks in order to retain them as apposed to removing, which the highways dept would like.

They have been pollarded some time ago and we wish to re do the works (pollard), I estimate this to be a height of 30ft.

We would like to get this work done before the growing season, in the interest of the trees health if this is possible,

Kindest Regards and many Thanks

Gavin and Eloise

The Darling Buds of May

Dear Mr Acklan,

Thank you for your email.

Unfortunately I still require the exact measurements, the previous applications have never actually provided the exact measurements so I am unable to get the information required from them.

You will not have to resubmit the application if you provide the information by 26th January, after this date the application will be considered invalid.

If you need any assistant then please do not hesitate to contact me.

Many Thanks

Charlotte Burrows
