10.5.2019

I object to cutting down or topping the
lime trees between the Methodist Church grounds
& Abbot Bent

1. It is May & they are in full leaf.
 2. They are beautiful as they are
 3. They are healthy
 4. They provide a roost & nesting for birds
 5. They absorb Carbon Dioxide release oxygen.
 6. They support a green area in the Street
 7. We should be planting trees not removing them
- What is your policy on Climate Change
are you planting saplings anywhere?

You cannot put on the Notice the full address (postal)
as the Post Office refused my letter.

Yours Sincerely
