Dear Anita,
Please find attached our revisions as discussed. As we have now resolved the issues you raised, we are hoping that you are now able to support this application at the next meeting. Are you able to confirm that this is the case? My client is anxious to ensure his application will be heard at the next meeting on 9th August as previously planned, so we hope that this can now be re-advertised today/monday and that this will leave us enough time to keep this important schedule and prepare for the meeting. We look forward to hearing back from you to confirm.

Kind regards
Matt

Dear Matthew,

I have discussed the amendments with my team leader. The impact on residential amenity is improved, but the amendments do have impacts on other properties. I suggest you submit the amendments as updated proposals we will then re-advertise them and see whether any additional comments are received.

Regards

Anita Gardner

Dear Anita,

Based on my last email with proposed amendments do you have any feedback please? If you are happy with the proposal which addresses the window issue I can send you proper updated drawings for the file.

Kind regards,

Matt
