Dear Sirs,

We are writing in full support of the Application Ref:  
R/77/14/PL.

The Parish Church of St Peter & St Paul is currently failing our disabled and elderly residents in not providing accessible toilet facilities in the Church. We are also concerned for the Church's regular visitors from St Bridget's, The Princess Marina Home and Rustington Convalescent Home, as well as those holidaying in Rustington who are elderly and/or disabled. Though there is a public toilet at the end of the Church pathway, and also facilities in the Church Hall, the use of these means a long, slow walk for those able to do so, which in inclement weather is neither practical or safe.

The proposed extension would give both wheelchair users and those who use walking frames & sticks, easy access to good toilet facilities. We feel the extension is essential for the Church to meet not only people's needs but to comply with any legal requirements. We are sure the exterior of the new extension will be sympathetic to the character & appearance of the existing Church building and wholeheartedly support it.

Yours faithfully,
