Our ref. 2512

The accompanying application is for the addition of a dormer to the new en-suite bathroom and for the change to pitched roofs over the rear dormers to match those at the front. The window in the extra dormer will be obscure glazed.

The neighbour to the West has been consulted regarding this application as the new dormer could view their rear garden if plain glazed and it was their suggestion that the pitched roofs be incorporated to improve the view for them, as noted obscure glazing is proposed.

We trust the foregoing is satisfactory and the application will be successful.
