See EH Food Team comment below. If significant noise arises from the proposed extension there is potential impact upon the flat above the restaurant, if this is in separate residential occupation. In such circumstances noise mitigation measures may not be practical.

I have no objection to the proposed extension, which is to be constructed of appropriate materials for use in connection with the main kitchen area. I have noted the relocation of the sanitary accommodation for staff & customers, and advise that the numbers of these facilities must not be reduced in view of the anticipated increased capacity for seated customers in the dining area.
