Dear Cian,

Sainsbury's Supermarkets Ltd.
Unit C, Rustington Retail Park, New Road, Rustington, BN16 3RT
Application to Discharge Condition 19 attached to application ref. R/59/12

On behalf of our client, Sainsbury's Supermarkets Ltd, please find enclosed an application to discharge condition 19 attached to planning permission ref. R/59/12, approved by the Council on 1st November 2012. The permission granted the following development:

'Demolition of existing foodstore. Construction of A1 Class retail foodstore, service yard, covered customer car park and landscaping improvements.'

The details enclosed within this application relate to condition 19. All documents and drawings have been submitted in an electronic format via Planning Portal (Ref. PP-03312153). The application fee has been calculated at £97.00 and a cheque has been sent under separate cover, with the planning portal reference clearly marked on the back.

Condition 19 – Drainage

Condition 19 states:

'The development layout shall not be agreed until such time that arrangements for the future access and maintenance of any watercourse or culvert crossing or abutting the site has been submitted to and approved in writing by the Local Planning Authority. No construction is permitted, which will restrict current and future land owners from undertaking their repair and maintenance responsibilities of any watercourse on or adjacent to the site.'

Pursuant to Condition 19, please find enclosed the following documents:

- ❖ CCTV Survey, prepared by Julian Munn Drainage Services Ltd

✧ Drawing No. 136421: Sewer Records

The attached documents relate to the off-site, existing, 150mm diameter SW sewer from the adjacent nursing homes.

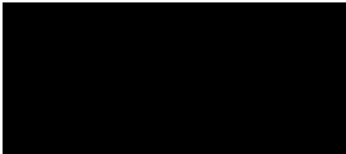

The survey confirms that the existing 150mm pipe exits the southern Boundary into the rear gardens of Angmering Way, thereby indicating that any pipework runs out with the southern boundary. The survey also shows that no buried manholes were discovered within the site and the old open ditch to the south/west had no evidence of any pipe or culvert entering from the east.

The CCTV survey was carried out using drain-tracer equipment along with extensive trial hole investigation works. The attached CCTV report provides a drawing in the appendix showing the existing pipe exiting the site on the southern boundary, into the gardens of Angmering Way.

Drawing No. 136421 provides a Southern Water drainage record drawing which illustrates that they have no drainage in this area, along with an original drawing received from Arun District Council.

I trust the information submitted is sufficient to enable the registration and validation of the application, and I look forward to receiving confirmation of this in due course. In the meantime if you require any further information please do not hesitate to contact me.

Yours Sincerely,

Alice Broomfield

Assistant Town Planner
