

THE LAMB, RUSTINGTON

Application No. R/286/17/PL

Discharge of Condition No. 3

Below are the standard colour range for the rear awning.

We've chosen a colour way that best blends with the buildings existing colours and yet also helps de-emphasise the mass of the building against the boundary wall and garden area.

- The frame proposal is RAL 7024 GREY
- Awning roof FERRARI W96 (translucent) BLACK
- Awning sides SOLTIS 86 :-S86 2167 Concrete

All the sides and roof are retractable as previous description.
