Design and Visual Amenity

The applicant seeks planning permission for the construction of a rear extension to the established dwelling. The proposed rear extension will measure approximately 5.1m wide, 5.3m in length and be built to the proposed height of 3m with a sky lantern that protrudes a further 0.4m. The proposed side extension will be measuring 1.1m in width, 1.6m in depth and to a proposed height of 2.1m.

The proposed rear extension given its location will not be visible from the street scene, it will therefore not have a detrimental impact on the character of the host dwelling or the street scene. The side extension would be visible however it is deemed to be subservient to the host dwelling and would not result in any adverse impact on the spatial pattern or character of the area and would therefore accord with the policies D DM1 and D DM4 of the Arun Local Plan.

Neighbouring Residential Amenity

The proposed rear extension will be located 14.6m from the eastern boundary and 1m from the southern boundary. On the eastern elevation there are 1 No. French doors and 1 No. window. The proposed side extension there is 1 No. 4 painted glass window.

Given the design and location of the extension it is not considered to give rise to adverse impacts in terms of overlooking, overshadowing and overbearing as the total height of the proposed would not be clearly visible from the neighbouring property and is therefore deemed to accord with D DM1 and D DM4 of the Arun Local Plan.
