re Planning Application 70, Woodlands Avenue

Dear Sirs,

We are concerned about the proposal for an apartment in the roof space of the new building.

This is going to be much higher than the previous building & we are worried that our privacy will be compromised by being overlooked.

The developer has said he will erect a 6ft fence at the bottom of our garden as the original fence was destroyed at the same time as some of the trees. We understand the rest of the trees are also to be demolished.

We would like the existing Leylandii to remain if possible as this is a good screen for us.

Yours faithfully
