Dear Ms. Welch,

Re: R/90/22/HH 10, Fosters Close.

I am aware that you are unable to make a site visit regarding the above planning application and I know Mr. Guess has forwarded some photographs to you. To help even further I have attached three photographs of my own.

The first shows the view of the east elevation of No. 10 from my main bedroom. The other two are photographs of the north elevation taken from my garden.

I am a keen gardener and the part shown has only just been re-landscaped with a seating area which will now be completely overlooked by the Velux windows of No. 10. The violation of my privacy is deeply upsetting. I am now

retired and this was to be our "forever" home and we have enjoyed our garden without interfering with or upsetting anyone else. I listened to what you told me about windows overlooking gardens but I felt I had to share my feelings with you.

I will be completing an online objection in the usual way and submitting it early next week.

On the first floor of the plans is a "Lego" room. What actually is a Lego room?

Thank you for your advice and patience when I called you.

Kind regards,

Stan James.
