

MGC Equine

I have ridden for 19 years, competing up and down the country Show jumping at the best venues in the country including Hickstead, Wales and West, Keysoe, Onley Grounds equestrian complex, Bury Farm, Arena UK, Addington Manor, Weston Lawns just to name a few. I compete successfully up to 1.40m and have limited experience jumping Grand Prix's too. I started jumping for Crawley and Horsham Hunt South Pony Club and moved onto Junior British Show Jumping and had a lot of success.

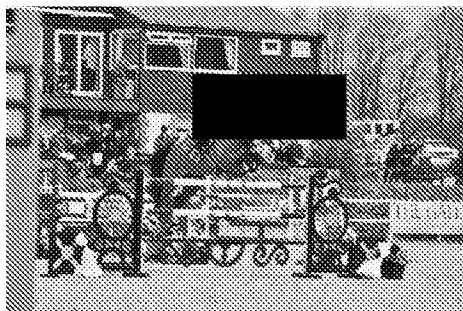

I am now a senior British Show Jumping member with the hope of progressing to Fédération Equestre Internationale soon. I currently hire other venues to train as my current sand school is of a standard size and I am unable to set up more than 1 fence of the size that I require for training. Grand Prix courses are made up of a minimum of 16 obstacles and take up a large area and the arena needs to accommodate this (Such as David Broome event centre with an arena size of 100m x 72m) and I need to be able to practice round courses built up to and over 1.40m to mirror my competitions, currently I am being held back from mine and my horses full potential. I currently have 7 horses, 2 of which are broodmares as I have started the process to breed with my best horses for future stock. This year I am hoping to breed 2 foals which will mean there will be 11 horses on site. Therefore I need to expand the current amount of stables we have at Goose Green in order to accommodate these horses and moving forward MGC equine would like to continue breeding and build my string of horses.

I've won some amazing titles and got some top finishes at prestigious events including a win at the members cup series, 2nd place at 1.30m Grade C, qualified Foxhunter Second rounds, jumping HOYS Grade C qualifiers, several qualifications for Blue Chip championships, placed top 3 at Windsor Horse Show and two wins at Hickstead derby show and Hickstead royal international show, where every equestrian dreams of placing at! I hope to return and claim my titles back for back to back success. Something I will only succeed if I train myself and the horses and having a school at home to allow me space to use grid exercises and course work which is all needed to stay successful and train the younger 'up and coming' horses who haven't got the ring experience yet.

Also, in 2019 I was a Gold League rider until Covid-19 stopped play for me competing. I am hoping to get back to this level of success again soon, but keeping my horses fit with no appropriate facilities is extremely hard. Especially as arena hire facilities have been shut for a long period of time throughout Covid-19.

I also have FEI horses which I am hoping to start competing internationally now competitions and restrictions are starting to become easier to navigate.
