

Downs House, Avisford Park Road, Walberton, West Sussex. BN18 0AP
Householder Application
Lidsey Drainage Statement

Foul Drainage - The proposed works are only slightly larger than the existing dwellings footprint and an existing kitchen, utility area, bathroom and shower room exist at the property. The amount of additional waste water will be minimal as the occupancy of the dwelling as a whole will not increase. The foul drainage will connect and discharge into the existing dwellings system and then into the mains sewer.

Surface Water - The existing surface water drainage system will be utilised for the extended property, with new soakaways provided as required. The roof area is only slightly increased.

I trust that this information is satisfactory, should you have any comments or queries please do not hesitate to contact me.
