

Design and Access Statement

Window replacement WA/105/18/L

3 Forge Cottages, the Street, Walberton, BN18 0PQ

We wish to replace the rotten timber in the windows, which will necessitate replacement windows. They will be exactly the same design as the windows in situ, and exactly the same design as the adjoining cottages, 1 and 2, using the same supplier, Chartwell Wooden Windows. That is to say we will replace casement windows with three panes, the outer panes opening completely and the inner window having a small top opening casement. (see photos and drawing included) with windows of the same design.

The construction will be of hardwood, painted white, and glass.

There will be no change made to access.

Mike Copley and Melanie Penycate
