Dear Mr ROBGETS

REF WA 10619 HH

The above extension which has already been built which makes a mockery of your Planning laws.

The windows and back door of this extension over look myself, neighbours + others gardens making it a Privacy issue, also the Dormer extension renders our gardens as not Private anymore.

The windows ~~are~~ are able to allow the occupants to gaze up into bedroom windows of several properties. So I know have to keep my bedroom Curtains permanently closed. The colour of the window frames do not match existing windows, making the property

look out of keeping with the whole area.

This house has now become a three
storey property which is totally out of
keeping with the area.

Yours Sincerely
