Arboricultural Assessment

Reference: Mike Shore- 18 Hunters Mews

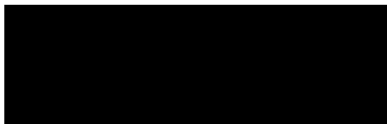

T1 Ash. This tree has a visual presence in the rear gardens and from the north aspect surrounding the tree. I have personally gained consent and worked on this tree since 2011 with the aim to maintain the tree at a reasonable size due to the proximity of the adjacent properties, and this latest application aims to reduce the tree in height and spread to the same size I have reduced to in previous years.

Please see attached photos below.

(2011)

Yours sincerely

Daniel Barker
