I have a few questions regarding
Planning WA/114/18/HH.

- 1) On a previous application - Eastern Elevation - the proposed ground floor window was deemed obtrusive as it would be only 4ft away overlooking my side entrance. Only the small 1st floor frosted window was allowed.
- 2) South Elevation: building out to enclose the porch thus they are 5ft beyond the Building Line!
- 3) Garage - Storage: this would be further south of any building in Arundel Road 15ft beyond the Building Line with the Garage opening onto my property. The private road alongside their property is for my Wine Shop Customers not for their extended use.
