

 Planning Officer : Damian Sullivan

Planning Application Ref: WA/11/14/TC

Location : Little Croft, The Street, Walberton

Description of works: Fell 1 No Cupressus tree

Applicants Reasons : Tree has become too large for its location

Comment On Application:

Golden Macrocarpa - *Cupressus macrocarpa* Height – 2m : Avge Spread – 1m : Age – Young

- This tree has already been stunted by heavy lopping presumably in an attempt to control its vigorous growth habit.
- This work has severely stunted it and undermined what little amenity value it possessed.
- This is a poor quality tree of flat topped and stunted form.

Conclusions :

Golden Macrocarpa – I raise no objection to the removal of this tree

Recommendation:

I agree with the principle of removal of this tree as described in the notification and would see no reason to apply a TPO to control same.
