I refer to the above application for approval of conditions imposed under WA/44/17/OUT and specifically condition 23.

1. I am happy to support the discharge of condition 23 regarding noise providing that the mitigation recommendations contained within the noise assessment from Ardent Consulting Engineers, ref 183240-04 dated February 2019 are applied and remain thereafter.
2. I am happy to support the discharge of condition 23 regarding air quality as the report from Ardent Consulting Engineers, ref 183240-06 dated February 2019 indicates that the development will have a negligible adverse impact on air quality.
