Subject: RE: WA/11/19/DOC - Land east of Tye Lane, Walberton - Condition 19 regarding the location of fire hydrants

Dear Michael

Thank you for the revised drawing to comply with the initial requirement. The submitted plan would suffice to comply with condition 19.

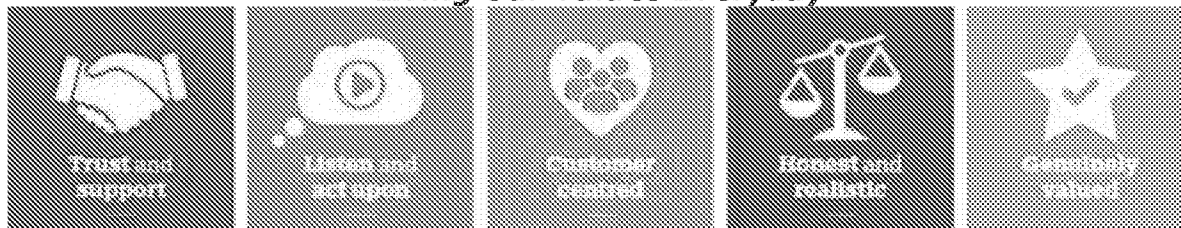

As the site starts to take a formal design we would request an update and as the site will be developed in stages we would need to be informed to inspect the hydrants as they become operational to ensure they are fit for purpose prior to occupation. This is common practice on larger sites.

If I can be of any further help please let me know

Sorry for the delayed response

David
