Dear Mr Briggs,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015
Approval of details reserved by condition imposed under WA/68/20/OUT relating to condition 20- Broadband speed.
Land West of Tye Lane Walberton

Notification regarding the above application:

Condition Number 20

No part of the development shall be first occupied until a strategy for the provision of the highest available headline speed of broadband provision to future occupants of the site shall be submitted to and approved in writing by the Local Planning Authority. The strategy shall take into account the timetable for the delivery of 'superfast broadband' (defined as having a headline access speed of 24Mb or more) in the vicinity of the site (to the extent that such information is available). The strategy shall seek to ensure that upon occupation of a dwelling, the provision of the highest available headline speed of broadband service to that dwelling from a site-wide network is in place and provided as part of the initial highway works and in the construction of frontage thresholds to dwellings that abut the highway. Unless evidence is put forward and agreed in writing by the Local Planning Authority that technological advances for the provision of a broadband service for the majority of potential customers will no longer necessitate below ground infrastructure, the development of the site shall be carried out in accordance with the approved strategy

Decision:

Arun District Council have decided to **APPROVE details reserved by this condition**

The submission comprises of the plan showing Virgin Media connections (Site Layout 5 ref

210824/SL01/SL Rev X), the BT Openreach Connectorised Fibre Network plan (ref YPN/00S), and the pack of 4 plans by Hyperoptic Ltd. These jointly confirm that the development will be connected with full fibre.

This meets the council's requirements and the condition is fully discharged on the basis of the submitted details and on the understanding that the homes will be supplied with superfast fibre broadband meeting a minimum speed of 24MB.

Please do not hesitate to contact the above officer if you require any further assistance.

Yours sincerely

Neil Crowther
Group Head of Planning
