Subject: Planning application WA/12/11 Walberton pre-school

I am writing in SUPPORT of the above application.

Although the proposal for the pre school building is outside the building line I do believe that exceptional permission should be given for this development by virtue of the applicant having clearly demonstrated the need and the benefit to the community of such a facility being provided. I fully support the principle that a dedicated preschool building is needed in the village and feel that the plot identified is a reasonable place for it.

However, given current pressure for the adjoining land to be developed, I would like to request that special consideration be given to assuring the community that the preschool building will be given exceptional permission for very specific use and that its future presence will not be used as an argument for changing the status of the adjoining land which is also currently outside the building line.

Yours faithfully
Sarah Waights
