Dear Sirs/ Madam

Re: New residential development at site of Turnpike Motors, The Street, Walberton
Your ref: WA/55/16/PL

We have attached our application to discharge the two outstanding conditions on the above planning approval.

We seek approval of condition 11 and condition 9/1 both of which relate to the contamination remediation verification report. Due to the size of the report we are unable to upload it to the planning portal and will therefore send a hard copy.

Once the application has been submitted and we have the application reference number our client will contact you to pay the fee of £116

Should you require any further information please don't hesitate to contact us.

Yours faithfully,

Garry Mount
