Dear Nicola,

Application reference: WA/15/22/PL and WA/16/22/L.

Hope you are well.

With regards to the attached letters, please refer to the attached updated drawing 22028 - 001A and a Method Statement, as requested. Please can you advise if these are acceptable or if you would like any more information prior to me sending it to [REDACTED]

With regards to the structural survey requirement on letter WA/16/22/L, I confirm that I am a Chartered Structural Engineer and personally undertook the survey of the property (survey date, 21st January 2022). I note that none of the structural elements will be altered during the works. Please can you let me know if an email to this regard or a short letter, signed by myself, would be adequate to satisfy this requirement?

I look forward to hearing from you.

Kind regards,

Dave Gierke (CEng, MEng, AStructE, MSAICE)
Associate Director, Chartered Structural Engineer

Proudly serving our clients for over 30 years.
