To whom it may concern,

Re: **WALBERTON PARK, THE STREET, WALBERTON BN18 0PJ - WA/15/22/PL and WA/16/22/L**

I confirm that the works proposed at the above property consist of removing the existing roof tiles, battens and felt of the west wing's roof and replacing with new (like for like).

I confirm that a structural survey of the roof structure was undertaken on 21st January 2022, and I confirm that none of the structural elements will be altered during the proposed works.

The new roof tiles will be like for like, therefore no additional loading will be exerted on the existing structure.

I trust the above is clear, but should you have any queries, please feel free to contact me.

Yours sincerely,

D GIERKE (CEng, MEng, AStructE, MSAICE)
Associate Director, Structural Engineer
on behalf of PHILIP GOACHER ASSOCIATES

Enc

Managing Director P J Goacher (B.Sc. (Hons.), C.Eng., MICE, M.I.Struct.E)
