

The garden is over grown with the trees crowding out the rest of the garden. There was an application WA/76/21/TC last summer that was rejected for the Silver Birch which is excluded from this application. At the time the Tree Office had no objection to the proposed work on the Magnolia and Bay trees.

Tree number 2

Bay

Work — Crown reduction of 2 metres

Age is unknown but must be older than 40 years. Height is over 10m and spread is up to 9m. The tree is showing some distress with small patches of random die back on the outer leaves and more die back within the tree canopy. It has become leggy and lost its dense look.

Proposed work is crown reduction by up to 2 metres and tidy the appearance by reducing the spread by up to 1.5m all around.

Tree number 3

Magnolia

Work — Crown reduction of 2 metres up to

Age is unknown but must be older than 40 years. Height is 5m and the spread is up to 8m. Proposed work is crown reduction by up to 2 metres and tidy the appearance by reducing the spread by up to 1.5m all around.
