Hi Simon,

I am satisfied with the information provided for the river condition assessment.  
I am clearer on the proposed enhancements. These are acceptable.  
There are errors on the metric that will need addressing but this is not a hinderance to determining this application.

Regards,

**Jonathan Best MCIEEM**

Hi Simon

Please see attached and comment

Please see attached the full condition assessment information taken from the MoRPh dataset. I have also included the proposed enhancements to stream in order to achieve the score, as detailed in the BNG letter, so everything is in one place.

I hope this is what is required.

Best regards  
Sue
