

National Highways Planning Response (NHPR 25-01) Formal Recommendation to an Application for Planning Permission

From: Hermes Luli (Head of Planning & Development)
Operations Directorate
South East Region
National Highways
[REDACTED]

To: Arun District Council (FAO Mr S Davis)
planning.responses@arun.gov.uk

CC: [REDACTED]
[REDACTED]

Council's Reference: WA/18/26/PL

Location: Land off Arundel Road, Fontwell

Proposal: Erection of 64 residential dwellings with access off Arundel Road, together with associated parking, open space, play space, landscaping, drainage and infrastructure. This application is a Departure from the Development Plan, affects a Public Right of Way, may affect the setting of listed buildings and is in CIL Zone 3 and is CIL Liable as new dwellings.

National Highways Ref: NH/26/15548

Referring to the consultation on a planning application dated 24 March 2026 referenced above, in the vicinity of the A27 that forms part of the Strategic Road Network, notice is hereby given that National Highways' formal recommendation is that we:

- ~~a) offer no objection (see reasons at Annex A);~~
- b) recommend that conditions should be attached to any planning permission that may be granted (see Annex A – National Highways recommended Planning Conditions & reasons);**
- ~~c) recommend that planning permission not be granted for a specified period (see reasons at Annex A);~~

d) ~~recommend that the application be refused (see reasons at Annex A)~~

Highways Act 1980 Section 175B is not relevant to this application.¹

This represents National Highways' formal recommendation and is copied to the Department for Transport as per the terms of our Licence.

Should the Local Planning Authority propose not to determine the application in accordance with this recommendation they are required to consult the Secretary of State for Transport, as set out in the [Town and Country Planning \(Development Affecting Trunk Roads\) Direction 2018](#), via [REDACTED] and may not determine the application until the consultation process is complete.

The Local Planning Authority must also copy any consultation under the 2018 Direction to [REDACTED]

This response and all comments outlined herein are made in respect of planning matters only in National Highways' position as a statutory planning consultee, and does not confer any proprietary rights nor amount to the giving or refusal of consent, assent, approval, or awareness of or by National Highways in or of any other aspects or matters (including, but not limited to, the use of property belonging to National Highways). If anyone wishes for National Highways to consider any aspects which do not relate to planning submissions, they should call our contact centre on 0300 123 5000.

¹ Where relevant, further information will be provided within Annex A.

Annex A **National Highways' assessment of the proposed development**

National Highways has been appointed by the Secretary of State for Transport as a strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

Recommend that conditions should be attached to any planning permission that may be granted: Reasons

We will be concerned with proposals that have the potential to impact on the safe and efficient operation of the SRN, in this case, particularly within the vicinity of the A27.

Given the scale and location of the proposal and the likely trip generation and distribution, we are satisfied that this development, if permitted, would not have a material impact on the reliability and operational efficiency of the SRN.

Given the proximity of the site to the SRN, we have recommended conditions on a Construction Environmental Management Plan and drainage.

Having assessed application WA/18/26/PL, we are content that the proposal, if permitted, would not have an unacceptable impact on the safety, reliability, and/or operational efficiency of the Strategic Road Network in the vicinity of the site (A27) provided that the following conditions are imposed, reflecting DfT Circular 01/2022 and NPPF 2024 paras. 115-118.

1. Construction Environmental Management Plan

Condition: No works shall commence on the site hereby permitted (including site clearance or preparation) until the details of a Construction Environmental Management Plan (CEMP) have been submitted to and approved in writing by the local planning authority. Thereafter the construction of the development shall proceed in strict accordance with the approved CEMP unless otherwise agreed in writing by the local planning authority.

Reason: To ensure that the A27 continues to be an effective part of the national system of routes for through traffic in accordance with section 10 of the Highways Act 1980 and to satisfy the reasonable requirements of road safety.

Informative: The CEMP shall include details (text, maps, and drawings as appropriate) of the scale, timing and mitigation of all construction related aspects of the development. It will include but is not limited to: site hours of operation; numbers, frequency, routing and type of vehicles visiting the site (including measures to limit delivery journeys on the SRN during highway peak hours such as the use vehicle booking systems etc); measures to ensure that HGV loads are adequately secured, travel plan and guided access/egress and parking arrangements for site workers, visitors and deliveries; plus sheeting of loose loads and wheel washing and other facilities to prevent dust, dirt, detritus etc from entering the public highway (and means to remove if it occurs).

2. Drainage

Condition: The development hereby permitted shall be undertaken in strict accordance with the approved Drainage Strategy Plan (Rev 4). No surface water shall be permitted to run off from the development hereby permitted on to the Strategic Road Network or into any drainage system connected to the Strategic Road Network. No drainage connections from any part of development hereby permitted may be made to any Strategic Road Network drainage systems.

Reason: In the interest of the safe and efficient operation of the Strategic Road Network, and to protect the integrity of the Trunk Road drainage asset in accordance with DfT Circular 01/2022.

Standing advice to the local planning authority

The Climate Change Committee's [2022 Report to Parliament](#) notes that for the UK to achieve net zero carbon status by 2050, action is needed to support a modal shift away from car travel. The NPPF supports this position, with paragraphs 77 and 110 prescribing that significant development should offer a genuine choice of transport modes, while paragraphs 109 and 115 advise that appropriate opportunities to promote walking, cycling and public transport should be taken up as part of a vision-led approach.

Moreover, the carbon reduction hierarchy (avoid-switch-improve) as set out in clause 4.3 of PAS2080:2023 promotes approaches and measures to minimise resource consumption and thereby reduce carbon emissions.

These considerations should be weighed alongside any relevant Local Plan policies to ensure that planning decisions are in line with the necessary transition to net zero carbon.

Our Reference: #26950, NH/26/15548

Dear Mr Davis,

Thank you for your email of 01 May 2026 consulting National Highways on additional information submitted in support of the above referenced application.

We are concerned about the safety, reliability, and operational efficiency of the Strategic Road Network (SRN), in this case the A27 in the vicinity of the site.

The additional information comprises an updated Drainage Strategy Plan (Rev 4). We have reviewed the updated Plan in the context of our holding recommendation dated 22 April 2026.

Please find attached our updated formal National Highways' Planning Response (NHPR) which **recommends that conditions (Construction Environmental Management Plan and Drainage) be attached to any planning permission that may be granted.**

Should you or any others have any queries regarding our response, please contact us via [Redacted]

Kind regards,

Nigel De Wit MRTPI, Spatial Planner
