Subject: FW: WA/21/21/DOC

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Subject: WA/21/21/DOC

Dear Anita,

Environmental Health is not satisfied that enough information has been provided to discharge the Construction Management Plan condition. Please could the applicant amend the CMP to include the following:

1. Measures to minimise the noise (including vibration) generated by the construction process to include proposed method of piling for foundations, the careful selection of plant and machinery and use of noise mitigation barrier(s)

2. Details of any floodlighting, including location, height, type and direction of light sources and intensity of illumination;
3. Loading and unloading of plant and materials, including permitted times for deliveries;
4. Measures to control the emission of dust and dirt during construction;
5. Information on recycling / disposing of waste resulting from demolition and construction works i.e. no burning permitted.

Regards

Fiona
