

The Old Bakery, The St, Walberton, Arundel BN18 0PJ.

The tree in question is a Eucalyptus in good health, I recent years the owner is becoming increasingly concerned of the size of the tree mainly the girth at the base. 2 years ago the adjacent wall had to be repaired due to cracking because of the trees root system. The tree has got to the point now where is has grown too big for the location and need to be removed to prevent further damage.
