Andrew

I have read through the attached Tree Survey Report. In general, it makes an adequate appraisal of the site (trees) and describes methodology for protection measures.

Unfortunately, the applicant has not provided a Tree Protection Plan showing the precise detail of what measures are to be applied and where. This is essential before we can recommend approval, as without a sufficiently detailed plan there is no way we can ensure retained trees will be adequately protected.

The plan is neither to a **recognised scale** (e.g. 1:100 @ A3) or given a **reference** (plan ref./dwg. no.) – so it is not possible to determine precisely where the tree protection measures are to be installed and which is the approved plan.

Once we have the aforementioned detail, I can then quickly prepare a couple of bespoke conditions for you.

Regards,

Mark
