

**Downs House, Avisford Park Road, Walberton, West Sussex. BN18 0AP**  
**Householder Application**  
**Lidsey Drainage Statement**

**Foul Drainage** – The proposed works are only slightly larger than the existing dwellings footprint and an existing kitchen, utility area, bathroom and shower room exist at the property. The amount of additional waste water will be minimal as the occupancy of the dwelling as a whole will not increase. The foul drainage will connect and discharge into the existing dwellings system and then into the mains sewer.

**Surface Water** - The existing surface water drainage system will be utilised for the extended property, with new soakaways provided as required. The roof area is only slightly increased.
